

Technical Note TN.JS-016

3 September 2012

TITLE

Jet Sustainer Installation

DESCRIPTION

The Jet Sustainer System was designed to be retrofitted in JS1B, JS1C gliders with the provision for jet available.

The system includes the following Sub-Assemblies:

- Jet Engine Assembly
- Jet Pylon Assembly
- Main Door Bellcrank Assembly
- Front Coverplate Assembly
- Main Doors
- Sustainer Fuel Tanks
- Jet Box Assembly
- Fuel Tubing
- Fuel Panel Assembly
- Emergency Fuel Shutoff
- ECU Assembly
- Electrical Assembly

INSTRUCTIONS

1. The system is installed in accordance with document Nr: P.JS-083
2. Installation must be done by a factory approved technician.
3. After installation the W&B should be redone in accordance with Doc Nr: 1A-5.04.20.
4. Installation must be signed off according to I.JS-42 Jet Installation Checklist
